

Instructions

- 1) Remove drain cover plate for shower, no need to remove sink stopper in most cases
- 2) Insert the **GREEN SNAKE**™ into the drain until the handle is just above the drain opening. (You may have to use some up and down or twisting motion depending on the severity of the clog.)
- 3) Retract the **GREEN SNAKE**™ to remove the clog.
- 4) Clean and store your **GREEN SNAKE**™ as it can be used many times , or if you want to throw it out, the best place is into your home or city compost pile but don't feel bad if you put it in the trash . The **GREEN SNAKE**™ is made from 100% biodegradable/ compostable, annually renewable resource, eco-friendly plastic.

CAUTION:

The **GREEN SNAKE**™ has sharp edges!

Always wear eye protection when handling or working with sharp objects.
